

Proposition 84 Statewide Park Program – Round One

City of Merced

\$2,619,740

McNamara Community Park Renovation

Substantially improve McNamara Community Park in the City of Merced and construction of three new soccer fields, public art with ornamental wrought iron fencing, and an open air performing arts area. Renovate playground area and restrooms. Install security cameras.

Through community based planning meetings, youth, seniors, and families selected these features. Additional design ideas from residents to be included in the project are:

- Keep restroom building near playfields, place picnic tables under shade trees.
- Install security cameras.
- Create decorative wrought iron fencing.
- 40 welding students will create the decorative wrought iron fence, 20 CCC members will create the “playfield boulevard” area.

The project will include these sustainable techniques:

- Use artificial turf instead of natural grass playfield.
- Use permeable pavers and permeable synthetic field.
- Fibar and artificial turf will be made from recycled material.
- Use California native trees and preserve existing mature trees.
- Use energy efficient outdoor lighting, trees to shade buildings, low flow plumbing fixtures, non-potable water for fountains and ponds, and orient buildings for energy savings.

The park will be open daily from 6 AM – 11 PM. No entrance or membership fees will be charged.
